## Paradigm Pet Professionals

*Pets are nature's gift to humanity.* It has been scientifically proven that opening our homes and hearts to a pet increases our longevity and improves our overall quality of life as well as the lives of our pets. At Paradigm Pet Professionals, our mission is to offer resources to help you care for your furry, scaly, feathery, and slimy loved ones. Our pet experts—or “Pexperts”—have 12 years of experience working with pet owners and professionals, certifications in pet health and nutrition, and customer recognition for outstanding support. We offer virtual consultations and presentations; one-on-one consultations about your individual pet; and group presentations on general pet care, tailored to your group's needs (including veterinary, pet shelter, and breeding professionals).

Looking for basic pet care advice for the most common type of pets? Need additional help determining which type of pet is right for you and your family? We will work with you and provide tailored evidence-based pet care to ensure lifelong health and wellness of your new companion.

Looking for your new best friend? The following organizations can help you find and adopt the perfect companion:

- [General Pet Resources](#)
- [ASPCA](#)
- [Fish Rescue](#)
- [Snake Rescue](#)
- [Bird Rescue](#)

We are also happy to help you navigate the adoption process! We will guide you through each step in the process from determining which type of pet is best suited for your family and home environment, to completing the necessary paperwork, to bringing your new loved one home.

Please fill out our [contact form](#) to request a consultation. We will contact you within 48 hours to schedule a consultation. All fields are required.
